Can't Stop Columbus

Brand Guidelines 1.0

URS

We are a group of community leaders, business owners, developers and helpful citizens pooling together our knowledge, time and resources to create real solutions to real problems our community is facing during these trying times.

The community is mobilizing to:

1. serve the organizations on the front lines with pro-bono tech and data support;
2. rapidly developing new solutions and ideas to identified challenges through virtual sprints and processes facilitated by the community's best civic hacking leaders.
